

# CANDIDA FREEDOM™

*Probiotic Balance & Restore Formula\**

- **L+ Lactic Acid Therapy**
- **Professional strength**
- **Dairy free**

Candida Freedom is a new type of probiotic formulated to assist individuals with the challenges of candida.\* Each capsule contains 2 billion spores of the beneficial bacteria Bacillus coagulans along with a 200 to 1 standardized extract of aloe vera leaf and the antioxidant alpha lipoic acid.

Bacillus coagulans produces the preferred form of lactic acid or L+ lactic acid. This benefit improves upon the long history of lactobacillus therapy.\* It is a transient bacteria that assists in the pH balance of the small intestines.\*

Candida Freedom contains aloe vera and alpha lipoic acid which assists in the maintenance of a healthy mucosal lining in the digestive tract.\*

Bacillus coagulans is a superior choice because of its strengths:

- Needs no refrigeration
- Remains dormant during manufacturing and delivery offering a long shelf life.
- Activated by the digestion process (HCL and bile)
- High proliferation rate
- Provides L+ lactic acid which promotes a healthy intestinal environment.\*

Candida Freedom can be used on the skin, scalp and orally as directed.

Candida Freedom is a maintenance formula for men and women who want to support the natural balance of their digestive system.\*

## Supplement Facts

Serving Size: 1 capsule  
Servings Per Container: 60

### Amount per Serving
